

	Maximum award
13–24 months grant duration	140,000.00
25–60 months grant duration	200,000.00
Topic 8: To 12 months grant duration	10,000.00

Approximately \$860,000.00 is planned for this solicitation; however, at the present time, in the absence of a signed approved Appropriations Bill, funds are not yet available. The total should provide support for approximately four to six R&D application selections (Topics 1–7), and approximately two to four facility/student exploratory application selections (Topic 8).

Solicitation Release Date

The Program Solicitation is expected to be ready for release on or about February 7, 1996. Applications must be prepared and submitted in accordance with the instructions and forms contained in the Program Solicitation. To be eligible, applications must be submitted to the designated DOE office by the closing date specified in the Program Solicitation (anticipated to be on or about March 22, 1996).

Dale A. Siciliano,

Contracting Officer, Acquisition and Assistance Division.

Energy Information Administration

Agency Information Collections Under Review by the Office of Management and Budget

AGENCY: Energy Information Administration, Department of Energy.

ACTION: Notice of request submitted for review by the Office of Management and Budget.

SUMMARY: The Energy Information Administration (EIA) has submitted energy information collections to the Office of Management and Budget (OMB) for review under provisions of the Paperwork Reduction Act of 1995.

DATES: Comments must be filed within 30 days of publication of this notice. If you anticipate that you will be submitting comments but find it difficult to do so within the time allowed by this notice, you should advise the OMB DOE Desk Officer listed below of your intention to do so as soon as possible. The Desk Officer may be telephoned at (202) 395–3084. (Also, please notify the EIA contact listed below.)

ADDRESSES: Address comments to the Department of Energy Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, 726 Jackson Place, NW., Washington, DC 20503. (Comments should also be addressed to the Office of Statistical Standards at the address below.)

FOR FURTHER INFORMATION: Requests for additional information or copies of the forms and instructions should be directed to Herbert Miller, Office of Statistical Standards, (EI–73), Forrestal Building, U.S. Department of Energy, Washington, DC 20585–0670. Mr. Miller may be telephoned at (202) 426–1103; e-mail: hmler@eia.doe.gov; (FAX 202–426–1081).

SUPPLEMENTARY INFORMATION: The Energy Information Administration (EIA) has submitted the energy information collections listed below to the Office of Management and Budget (OMB) for review under provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104–13). The listing does not include collections of information contained in new or revised regulations which are to be submitted under section 3507(d)(1)(A) of the Paperwork Reduction Act, nor management and procurement assistance requirements collected by the Department of Energy (DOE).

Each entry contains the following information: (1) Collection number and title; (2) summary of the collection of information (includes sponsor; i.e., the DOE component), current OMB document number (if applicable), response obligation (mandatory, voluntary, or required to obtain or retain benefits), and type of request (new, revision, extension, or reinstatement); (3) a description of the need and proposed uses of the information; (4) a description of the likely respondents; and (5) an estimate of the total annual reporting and recordkeeping burden (number of respondents per year times the average number of responses per respondent annually times the average burden per response).

The energy information collections submitted to OMB for review were:

1. Forms EIA–1, 3, 3A, 4, 5, 5A, 6, 7A, and 20, “Coal Program Package”

2. Energy Information Administration; Docket Number 1905–0167; Response Obligation—Mandatory; and Revision—Significant changes in the Coal Program Package since the EIA requested comments earlier this year are: The frequency of the EIA–6 will be reduced from quarterly to annual. Additionally, a supplemental schedule, designated Schedule Q, will collect quarterly data

on coal production and stocks from coal-producing companies that produce more than 30,000 short tons annually, and coal stocks from non-producing coal distributors that maintain coal stocks averaging more than 10,000 short tons per quarter. It is anticipated that these revisions to the EIA–6 will reduce respondent reporting burden by 5,900 hours, while maintaining the quarterly coal production and stock data.

3. The Coal Program Package surveys collect data on coal production, consumption, stocks, prices, imports and exports. EIA coal data and analyses are used by Congress, Federal agencies, and State and local governments to reach decisions on national and local policies and a variety of important coal-related issues. These include energy development and use, environmental protection, domestic welfare, and the health of the coal industry. Respondents are manufacturing plants, producers of coke, purchasers and distributors of coal, coal mining operators, and coal-consuming electric utilities.

4. Business or other for-profit; Federal Government, and State, Local, or Tribal Government

5. 12,492 total annual burden hours (6,733 respondents × 1.73 responses per respondent × 1.06 hours per response).

Statutory Authority: Section 3506 (c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104–13).

Issued in Washington, DC, January 30, 1996.

John Gross,

Acting Director, Office of Statistical Standards, Energy Information Administration.
